

MARIA MELENDEZ

Web Developer

Malaga, Spain

4 +34 643099167

I am a creative full stack web developer with an astute understanding of design principles and visual elements of projects.

My unwavering attention to aesthetics and functionality enables me to craft websites and applications that are both visually appealing and user-friendly. Web development is my passion, and I am constantly seeking to expand my knowledge and refine my skills. My professional experience spans multiple countries, granting me an international profile and adeptness in adapting to diverse work environments. Additionally, I have honed my communication skills by mastering several languages.
